Blue Health Intelligence (BHI) accesses the industry's largest and most comprehensive, conformed healthcare database of integrated medical and pharmacy claims.

About Us - Blue Health Intelligence

This report is part of the Transforming Health Market Insights Series. Current state: A reactive "sick care" system based on an episodic, acute care model As it exists now, the Canadian healthcare system "like most health systems globally that were designed in the post-World War 2 era" is a "sick care" system. That is, the system waits!

Transforming health: Shifting from reactive to proactive

Functional analysis in behavioral psychology is the application of the laws of operant and respondent conditioning to establish the relationships between stimuli and responses. To establish the function of operant behavior, one typically examines the "four-term contingency": first by identifying the motivating operations (EO or AO), then identifying the antecedent or trigger of the behavior ...
