Archaeology, or archeology, is the study of human activity through the recovery and analysis of material culture. The archaeological record consists of artifacts, architecture, biofacts or ecofacts and cultural landscapes. Archaeology can be considered both a social science and a branch of the humanities. In North America archaeology is a sub-field of anthropology, while in Europe it is often ...

According to Ernst Mayr, population thinking is a metaphysical theory. Mayr's essentialism, amounts to the view that types, including conceptual categories, are real while individual variation is illusionary. In contrast, population thinking entails the opposite view: Types are not real in nature, only individuals exist. According to Sober, the explanatory goal for essentialists is to find an ...
