4.Implications on the level of interpersonal interaction. 4.1 The enlargement of peripheral relationships and weak social ties. As a result of their empirical studies undertaken in the late eighties, the Australian researchers Cox and Leonard have come to the conclusion that instead of just functioning as a (rather imperfect) substitute for face-to-face relationships, the telephone factually ...

It is essential that a vehicle have a source of energy to drive it. Energy can be extracted from external sources, as in the cases of a sailboat, a solar-powered car, or an electric streetcar that uses overhead lines. Energy can also be stored, provided it can be converted on demand and the storing medium's energy density and power density are sufficient to meet the vehicle's needs.
