

beacon lights of history pdf

A beacon is an intentionally conspicuous device designed to attract attention to a specific location.. Beacons can also be combined with semaphoric or other indicators to provide important information, such as the status of an airport, by the colour and rotational pattern of its airport beacon, or of pending weather as indicated on a weather beacon mounted at the top of a tall building or ...

Beacon - Wikipedia

Light characteristics. An airway beacon has two distinct light characteristics: A revolving narrow white light beam about 5 degrees wide in azimuth and a set of fixed colored course lights of about 15 degrees width.
