IEEE Standards documents are developed within the IEEE Societies and the Standards Coordinating Committees of the IEEE Standards Association (IEEE-SA) Standards Board. The IEEE develops its standards through a consensus development process, approved by the American National Standards Institute, which brings together volunteers representing varied

IEEE standard test access port and boundary-scan

Here is a course in boundary element methods for the absolute beginners. It assumes some prior basic knowledge of vector calculus (covering topics such as line, surface and volume integrals and the various integral theorems), ordinary and partial differential equations, complex variables, and computer programming.

WT Ang's BEM (Boundary Element Method) Website

Several test elements use JMeter properties to control their behaviour. These properties are normally resolved when the class is loaded. This generally occurs before the test plan starts, so it's not possible to change the settings by using the `__setProperty()` function.

In computer science, the longest palindromic substring or longest symmetric factor problem is the problem of finding a maximum-length contiguous substring of a given string that is also a palindrome. For example, the longest palindromic substring of "bananas" is "anana". The longest palindromic substring is not guaranteed to be unique; for example, in the string "abracadabra", there is no ...
