"In the Air Tonight" is the debut solo single by the English singer-songwriter and drummer Phil Collins. It was released as the lead single from Collins' debut solo album, Face Value, in January 1981. Collins co-produced the single with Hugh Padgham, who became a frequent collaborator in the following years. The song was an instant hit, quickly climbing to No. 2 on the UK Singles chart but was ...

Learning theories are conceptual frameworks that describe how students absorb, process, and retain knowledge during learning. Cognitive, emotional, and environmental influences, as well as prior experience, all play a part in how understanding, or a world view, is acquired or changed and knowledge and skills retained.

85% of the brain is formed by age three The core structure of the brain is formed in the first three years. By age three, the brain has established a pattern of processing information that will be used throughout life. 1 As such, your childâ€™s early experiences affect the quality of his brain architecture, forming the foundation upon which future development rests.

1. Introduction. Many attempts have been made to popularize higher education to support society's shift into the information age. As part of this trend, massive open online courses (MOOCs) have attracted much attention as a way to expand higher education opportunities and improve the quality of instruction and learning.
