

secondary progressions time to pdf

progressions and directions. I will then slide back in time and we will examine the ancient origins of these techniques. Secondary Progressions The majority of today's astrologers use secondary progressions. This technique advances all planets so that each day of planetary movement corresponds to each-year of life.

An Introduction to Progressions and Directions

Secondary Progressions. Secondary progressions are a popular predictive technique in modern astrology. For the technique, the transits of each day following the birth are symbolic of each year of life.

Astrological Predictive Techniques | Progressions | 1

In secondary progressions, each day after (or before) birth corresponds to one year in the life. For example, if someone were born on October 5, 1960, then their progressed chart at age 19 would correspond to a chart cast for 19 days after birth, that is, for October 24, 1960. When we measure backward in time before the birth chart, we speak of converse secondary progressions.

Introduction to the Progressions Report - Astrology

June 1 1991, 12:00 UMT Birth Time The timeline represents one day of motion of the planets in the ephemeris. By secondary progression, it also represents one year in the native's life. So, 1 day = 1 year 24 hours = 12 months 2 hours = 1 month 1 hour = 2 weeks 1/2 hour = 1 week Birth time is at Midnight Sidereal Time from Ephemeris plus UMT.

Secondary Progressions and the ACD A Practical Guide

Secondary Progressions manifest through us. The progressed planets move around the chart in a similar way to the transits, although their movement is much slower. For example, the transiting Moon travels around the chart in 27 1/2 days, while the progressed Moon takes 27 1/2 years to make a complete journey round the wheel.

Secondary Progressions: Every Day Symbolizes A Year

"Secondary progressions take priority in foretelling events, since they reflect conditions for the individual at any time in question. They describe the unfolding natal potential. While the natal chart shows the influences under which a person is born and themes that will play out over a lifetime, it does not show when a particular influence or set of conditions will come about.
