Oracle WebLogic Server is a Java EE application server currently developed by Oracle Corporation. Oracle acquired WebLogic Server when it purchased BEA Systems in 2008.

Oracle WebLogic Server - Wikipedia

An application server is a software framework that provides both facilities to create web applications and a server environment to run them.. Application Server Frameworks contain a comprehensive service layer model. An application server acts as a set of components accessible to the software developer through a standard API defined for the platform itself.
