what are palpitations and pdf

Palpitations are the perceived abnormality of the heartbeat characterized by awareness of cardiac muscle contractions in the chest: hard, fast and/or irregular beats. It is both a symptom reported by the patient and a medical diagnosis. Palpitation can be associated with anxiety and does not necessarily indicate a structural or functional abnormality of the heart, but it can be a symptom ...

Hyperthyroidism is the condition that occurs due to excessive production of thyroid hormone by the thyroid gland. Thyrotoxicosis is the condition that occurs due to excessive thyroid hormone of any cause and therefore includes hyperthyroidism. Some, however, use the terms interchangeably. Signs and symptoms vary between people and may include irritability, muscle weakness, sleeping problems, a ...

Hyperthyroidism - Wikipedia

We have already covered the definition of heart palpitations in the last post, so now would be a good time to talk about the causes of our heart palpitations. Knowing what may be causing our heart palpitations goes a long way to figuring out what will help manage or cure them.
