5. Summary: Elaborate usability tests are a waste of resources. The best results come from testing no more than 5 users and running as many small tests as you can afford. Some people think that usability is very costly and complex and that user tests should be reserved for the rare web design project with a huge budget and a lavish time schedule.

Why, specifically, did you "have to" rename the Active Directory? Having your AD forest name match your public-facing domain name is not remotely "required," and it seems like a minimal/non-existent problem that "some other organization" might end up buying "yourdomain.local" and cause DNS issues.

Why you shouldn't use .local in your Active Directory
