Box turtles are North American turtles of the genus *Terrapene*. Although box turtles are superficially similar to tortoises in terrestrial habits and overall appearance, they are actually members of the American pond turtle family (*Testudinidae*). The twelve taxa which are distinguished in the genus are distributed over four species.

Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.

Turtle Poetry . Over the years, Chelonian Research Foundation has been collecting and publishing Turtle Poetry. We started this in 1996 as a regular feature in our scientific journal, *Chelonian Conservation and Biology*, and have also published some turtle poetry in *Chelonian Research Monographs*. Inspired by early input and suggestions from Carol Conroy and J. Nichols, the feature has become a ...
