The mathematics questions on all SAT tests share one thing in common. All the questions test your ability to manipulate math, understand what you are asked to find in a problem, know how to use your math knowledge, and solve the problem in the shortest, simplest way possible. A problem's solution shouldn't have to be longwinded or tedious.

These next tests follow the old 2400 format of the SAT, with separate Critical Reading, Math, and Writing sections. (By contrast, on the current SAT, your Reading and Writing scores are combined for a total Evidence-Based Reading and Writing score.) Despite their somewhat out-of-date structure, these tests can be useful for your studying.
